Dear Interprofessional Care Strategic Implementation Committee Members,

We are pleased to accept your report, *Implementing Interprofessional Care in Ontario: – Final Report of the Interprofessional Care Strategic Implementation Committee*. This Report exemplifies the Committee's leadership and expertise in the implementation of interprofessional collaboration (IPC).

As a cornerstone of the HealthForceOntario strategy, we believe that interprofessional care / education will assist Ontario in reaching its goal of ensuring that Ontarians have access to the right number and mix of qualified health care providers where and when they need it. The innovative initiatives aimed at fostering IPC across the health system thus far are a reflection of the strong collaboration among education and practice leaders such as yourselves and front-line health providers.

We recognize that the momentum achieved in the implementation of IPC across the province would not be possible without the tremendous hard work, dedication and personal time that you have invested as a member of this committee.

We would like to thank you for your invaluable contribution to this very important project and we look forward to continuing to partner with you as we move forward with the adoption of interprofessional care in Ontario.

Sincerely,

  
Dr. Joshua Tepper  
Assistant Deputy Minister  
Health Human Resources Strategy Division  
Ministry of Health and Long-Term Care

  
Nancy Naylor  
Assistant Deputy Minister  
Postsecondary Education Division  
Ministry of Training, Colleges and  
Universities
