

**Become a Physician Assistant at The Ottawa Hospital  
Hemodialysis Unit, Division of Nephrology**

We invite applications from suitable candidates to work in the newly created position of 'Nephrology Assistant' in the Hemodialysis Unit at The Ottawa Hospital.

The successful candidate would work alongside a responsible physician in a busy hemodialysis unit at the General Campus, and would help to coordinate continuity of care and multidisciplinary care for the hemodialysis patients.

The Division of Nephrology has an established record of nurturing nurses in advanced roles in inpatient clinical teaching and transplantation. It also has had a pioneering nurse-led vascular access program.

The Ottawa Hospital encourages all suitable candidates to apply. Fluency in both English and French is an asset but not a requirement. CCPA certification is a requirement
