Note: Physicians who choose to book a higher (ineligible) fare class must provide a quote for the same flights detailing the eligible fare class equivalent. If there is no quote provided with the expense claim submission, fare reimbursed will be prorated based on a quote obtained by RNLP from vendor website at the time of processing, for an equivalent flight.

In the event there are no eligible fare classes available at the time of booking, or if you require further clarification, please contact the applicable program area:
